Subject: Class Size History

Date: January 14, 2013

The members of the Board of Education, as part of our Goals and Objectives for the 2012-13 school year, requested an analysis of class size history in the Westport Public Schools.

At my request, Nancy Harris has created a spreadsheet that compares class size enrollments in second grade for the 10 year period from 2003-2012 using a maximum class size guideline of 25 students per class v. 22 students per class, making use of present breakpoints. The effect of such a change in guidelines would create a maximum class size guideline of 22 for all classroom sections in Kindergarten, Grade 1 and Grade 2.

As you can see from the analysis, were we to change our maximum class size guidelines at the second grade level to 22 from the current 25, with retention of the current breakpoints, on average we could expect to add 2 full-time teachers to our budget, at a projected cost of \$140,000 to include benefits. Additionally, at a cost of \$70,800 we would be required to add 0.8 special area teachers and 0.4 paraprofessionals.

Based on projected enrollments, were we to implement a reduction in the maximum class size guidelines for grades 3-5 in the 2013-14 school year, similar to the reduction shown for grade 2 and retaining the current breakpoints, the impact would require us to add 5 full-time teachers in grades 3-5: 1 at grade 3; 1 at grade 4; and, 3 at grade 5. The total estimated cost of this increase in staff, with benefits would be \$350,000. Additionally, we would be required to add 2.0 special area teachers at a combined cost of \$140,000 and 0.2 paraprofessional for the third grade class at a cost of \$7,400.

Thus, for the upcoming 2013-14 school year, any reductions to current elementary school maximum class sizes from 25 to 22 in grades 2-5, would require us to add 7 teachers, 2.8 special area teachers, and 0.6 paraprofessional to our 2013-14 proposed operating budget at an average net cost of salaries and benefits of \$708,200.

Such a change in maximum class size guidelines also would impact our space needs, requiring us to modify the interiors of certain of our schools to accommodate the increase in classes, where possible; place students in sub-standard spaces for instruction; or, re-district in an attempt to balance enrollments in a concerted effort to equitably re-distribute students throughout our schools.

The issue of class sizes is not applicable to the middle schools, where our teaming structure continues to be able to accommodate groups of 80-110 students. For Staples, with approximately 1,900 students expected in the next school year in a building constructed for only 1,800, without any change in class size guidelines, space limitations prohibit us from reducing our class size guidelines below their current maxima.

I have included for your review a listing of current class sizes at Staples for full year and all semester courses, both Fall and Spring.

Additionally, at the Board's request, I have included for your perusal data compiled from Tri-State Consortium school districts for information related to class size ranges and guidelines, as well as information pertaining to the numbers of school districts with full day Kindergarten, five days per week.

Subject: Establishment of Permanent School Calendar Guidelines

Date: January 14, 2013

As we prepare to discuss the 2014-15 school calendar, and based upon our weather-related experiences of this school year, and the previous one, and the many discussions we have had with the Board in recent weeks, I propose that the Board approve the following *permanent* guidelines to assist the Administration in developing future school calendar recommendations for the Board of Education:

1. The first day of school for students shall be prior to Labor Day.
2. Where possible, Columbus Day is to be a regular school day for teachers and students.
3. Both a February and April recess for students and teachers shall be retained.
4. Five (5) snow days shall be included.
5. Where weather-related or emergency conditions make a 182 day school year for students impossible to achieve, make-up days shall begin with the first day of the April recess and continue to progress to each day thereafter, until no longer needed.

Approval of permanent guidelines by the Board in anticipation of the preparation of the 2014-15 school calendar will be on the agenda of our meeting of January 14, with the establishment of a 2014-15 school calendar to be approved at a subsequent meeting.

ADMINISTRATIVE RECOMMENDATION

Be It Resolved, That upon the recommendation of the Superintendent of Schools, the Board of Education adopts permanent guidelines to govern the adoption of future school calendars, said guidelines to be incorporated in the Minutes of the Meeting of January 14, 2013.
