## INTEROFFICE MEMORANDUM

---

---

**TO:** ELLIOTT LANDON  
SUPERINTENDENT

**FROM:** ELIO LONGO, JR.   
DIRECTOR OF SCHOOL BUSINESS OPERATIONS

**SUBJECT:** DECEMBER QUARTERLY REPORT

**DATE:** JANUARY 23, 2014

**CC:** F. MEILAN, BUDGET FILE

---

Attached is the December Quarterly Report for the 2013-14 fiscal year which reflects a potential fund shortfall of \$1,039,342 through the end of the year. The potential deficit represents a 0.998% budget variation to the \$104,181,513 Board of Education adopted 2013-2014 budget.

The potential deficit can be attributed entirely to the projected shortfall in account 210 (Health Insurance); estimated at this time to be \$1,481,300. (Approximately half of the projected health insurance deficit can be offset by using the entire Health Insurance Fund beginning cash balance of \$799,991). All other accounts indicate at this time a cumulative favorable variance in total of \$441,958; reducing the total potential deficit to \$1,039,342. Of the \$441,958 favorable variance we have set aside \$240,000 to address the insurance reserve fund potential cash deficit. This leaves approximately \$200,000 of favorable variance to address unfavorable account variances experienced during the second half of the fiscal year.

You will note that we have completed 6 of the 12 months of the fiscal year with six months of school expenditures left in the year. This means that many of our expenditure projections continue as preliminary. The differences between the "Adopted Budget" column and the "Adjusted Budget" column reflect the administrative transfers made within each "line item" of the budget as the year has progressed and specific expenditures have been modified.

We encumber salaries for all full time employees and expenditures for anticipated purchases. Those encumbrances and expenditures account for 95.8% of the total budget. Actual expenditures made to date are 50.2% of total budget with encumbrances representing 45.6% of total budget. The remaining 5.2% of the budget projection represents my best estimate of expenditures to be made during the six months remaining in the fiscal year.

The greatest unknowns at this time are the projected substitute and overtime costs (objects 150 – 156) through the end of the year. I am currently projecting a deficit of \$390,307 in this account grouping. These accounts have the highest rate of volatility since staff attendance, workers compensation injuries, overtime, illness, and pregnancy cannot be definitively estimated. A review of the prior three years' actual expenditure data for Account 154 (Long Term Subs) reveals the need for a year-end transfer to offset a potential shortfall. The average yearly expenditure for the past three years was \$476,589. At this time I am projecting a year-end surplus in object code 102 (Regular Ed Teachers) in the amount of \$414,625 which can partially be applied as a transfer offset to account 154 (Long Term Subs). Similar intra-year/end-of-year transfers were used in past years to address shortfalls.

The final cost of heating fuel (natural gas & oil) and electricity, which creates a potential fund balance of \$334,127, is still an unknown since the total projections are based on consumption through November. The final fund balances depend on our actual natural gas and electricity consumption which will be impacted by the winter/spring temperatures and the extended use of our buildings. At this time we have reserved \$200,000 of projected heating fuel and electricity fund balance as an offset to account 210 (Health Insurance) overrun; part of the \$240,000 set aside.

Listed below is a summary of the Line Item projected balances:
